Admissions/Enrollment Management Enhancements	2
--	----------

About Release 92_4 Admissions Features

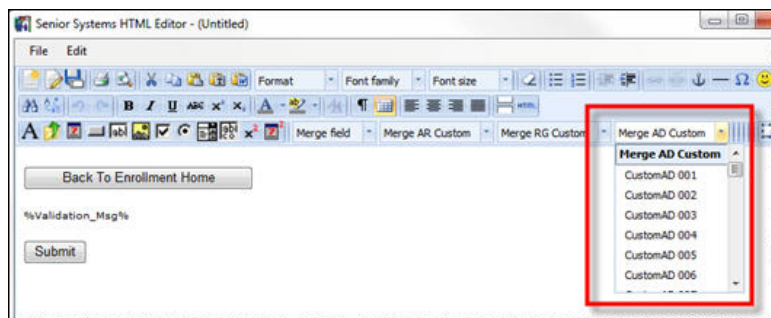

Release 92_4 introduces the ability to use up to 50 custom fields to track applicant data. We've made several other changes and enhancements to Admissions and Enrollment Management. Please see the individual topics in this bulletin for further details.

Please contact Support@senior-systems.com if you have any questions about any of these new features.

Admissions/Enrollment Management Enhancements

A number of minor enhancements have been made to the Admissions/Enrollment Management area of the Advantage system. New merge fields, enhanced search and sort options in Inquiry/Applicant Maintenance, and a fix to the HTML Contract Editor are included in the 92_4 Release.

Additional Custom Fields in Admissions - Now, up to 50 custom fields are available in Inquiry/Applicant Maintenance in Admissions. As previously, custom fields are available in Inquiry/Applicant Maintenance, queries, and exports. These fields are also available in Enrollment Management, and can be used in the HTML Contract Editor.

Default Settings for New Address - You can now control certain default settings for newly created Home, Work, and Other address records. Six new preferences in Admissions Administration Maintenance allow you to set your preferred options for "Is Primary Address", "Send Grades", and "Send Mail" fields.

The image shows a screenshot of the 'Admissions Administration' window, specifically the 'Preferences' tab. The window has a menu bar with 'File' and 'Edit', and a toolbar with a search icon. Below the toolbar is a search field containing the text 'default'. The main area contains a table with the following data:

App	Description	Value
*	For Other Addresses, what is the default option for the Is Primary Address field?	N
*	For Work Addresses, what is the default option for the Is Primary Address field?	N
*	For Home Addresses, what is the default option for the Send Grades field?	Y
*	For Other Addresses, what is the default option for the Send Grades field?	N

Date Control Fix - There was an issue impacting the date control field in Advantage Enrollment's HTML Contract Editor. The issue has been corrected. In order to implement the fix, all contracts using the Date Control must be opened and re-saved.

Important: In order for the Date Control fix to be implemented, all contracts currently using the Date Control must be opened and re-saved. This action will apply the fix to your contract(s).

Phone Number Search - It is now possible to search Inquiry/Applicant Maintenance by all phone types, including Home, Cell, and all four Other phone number types.

Financial Aid - Email Addresses - Email addresses have been added to Financial Aid Maintenance. Email addresses now appear on the address screen.
